

## **Session/Travel Box**

Allt Solutions have developed a solution for the angler who is going for a day out but does need all the gear contained in a Competition Box.

Utilising a top of the range Peli Case, our Session Box has been set out for a range of standard products that can be supplied or bought from your angling retailer. The box is also great for those going further afield, traveling, or going on holiday. Everything you need in one compact solution.

The box has been made specifically designed for the Airflow Switch reel as has the spool Lid. By doing this we are trying to offer a solution for one of the most popular and competitively priced reels.

PLEASE note the box is supplied without the contents shown. The price includes the Box with foam inserts, the Lid designed to hold the switch spools.

### **The Box has been designed for the following equipment:**

- Switch 7/9 Reel x 2
- Switch Standard 7/9 Spools x 8
- Fullingmill Tactical Box, 520 capacity double sided x 4
- Pocket for 4 Airflow sight-free Fluorocarbon spools
- Standard Priest.
- Frichy Forceps
- Pocket for 1 bottle of Gink
- Spare pocket for other items such as braided loops

All the above can be supplied at a revised cost if required.
